☎ (+47) 489-58-285 | ✉ yohannsandvik@gmail.com | 🔗 yohann-jacob-sandvik-711073101

Relevant skills

I have used **Python** for data science and data management. I have experience with packages in the **scipy**-stack, machine learning models in **scikit-learn** and developing deep learning models with **PyTorch** and **Tensorflow**. I am comfortable with **MATLAB**, and familiar with the **Julia** and **R** programming languages.

I have experience with the **C** programming language, and the **Git** versioning system. I am comfortable developing software in a **Linux**-based environment, and automating processes with **BASH** scripts. I have experience with setting up virtual software environments using **Anaconda** and **pyenv**, and configuring containers using the **Singularity** framework. I have worked in projects using the **Agile**- and **Test-driven-development** methodologies, and have used **Jira** for task management.

Experience

Ph.D Candidate in Data Science at NMBU

April 2022 - Present, Ås, Norway

- The research has been centered around application of cutting-edge deep learning models and computer vision for automating tasks in the logging industry.

Embedded Developer at Data Respons R&D Services

October 2020 - March 2022, Høvik, Norway

- I Worked as a hardware developer and software developer on two major projects for Hensholdt Optronics GmbH and Yeti Move AS.
- I was also part of a two-person team that managed the Data Respons' social media accounts and translated articles for the company's website.

Summer intern at NTNU

August - September, 2020, Trondheim, Norway

- Developed a small web-application where clinicians could test deep learning models.

Summer intern at Nordic Semiconductor

July - August, 2019, Oslo, Norway

- Digital designer working with timing verification of integrated circuit designs.

Head of Electronics Group at Revolve NTNU (Formula Student)

April 2017 - September 2018, Trondheim, Norway

- Revolve NTNU is NTNU's team in the international student competition Formula Student. In Formula Student, teams from different universities compete with Formula-1-style electric race cars that are designed, assembled and tested in-house.
- I developed part of the vehicle safety system, and as Group Leader I also supervised the work of eight embedded developers.

Summer intern at Kongsberg Defence and Aerospace (KDA)

June - August, 2017, Trondheim, Norway

- Hardware engineer in the student-project LocalHawk.

Education

Ph.D. Courses at NMBU and UiO

April 2022 - August 2025, Ås, Norway

- Advanced courses in statistics and machine learning at NMBU and UiO.

M.Sc. in Electronic Engineering (MTELSYS) at NTNU

August 2014 - June 2020, Trondheim, Norway

- Specialization in signal processing and communications with additional subjects in statistical analysis.

Erasmus exchange programme at EURECOM

September 2018 - June 2019, Sofia-Antipolis, France

- A year of exchange at the graduate level.

International Baccalaureate Diploma Programme (IBDP) at Ås VGS

August 2011 - May 2014, Ås, Norway

- With specialization in mathematics, physics and economics.

Other Experience and Skills

ACADEMIC WORK

- 2025

Using Deep Learning for Accurate Code-based Log Tracking from Forest to Sawmill, *Manuscript*
- 2024

A Comparative Literature Review of Machine Learning and Image Processing Techniques Used for Scaling and Grading of Wood Logs, *Forests*, 10.3390/f15071243
- 2020

Machine Learning for Classification of Myocardial Infarction and Heart failure Using Longitudinal Myocardial Strain, *Master thesis (Grade A)*, <https://hdl.handle.net/11250/2778134>

TEACHING EXPERIENCE

- Lecturer

IMRT100 - Introductory Course, Subject-oriented Project, NMBU, 2023 and 2024.
- Lecturer

DAT200 - Applied Machine Learning, NMBU, 2024
- Teaching assistant

DAT300 - Applied Deep Learning, NMBU, 2022, 2023 and 2024
- Teaching assistant

TFE4172 - Introduction to Semiconductor Devices, NTNU, 2020
- Teaching assistant

TFE4280- Sensors and Instrumentation, NTNU, 2017

LANGUAGES

- Fluent in

Norwegian and English,

VOLUNTEER ROLES

- 2017

E&T dagene, Head of the Business Contacts group at the student career fair.
- 2016

NTNUI Jiu Jitsu, Was responsible for managing the clubs finances for a year.
- 2014 - 2015

Omega (student union), Part of the founding members of the student union's brewing committee
